What is the downloadportal?

The OASE downloadportal offers you a large number of options.

After the online registration you can download texts, pictures, videos, technical information, data sheets and a lot more.

On the following pages of this documentation you're going to learn the basic structures of our download portal.

When opening the OASE online portal you're going to see the following image:

The screenshot shows the OASE Download-Portal interface. At the top, there is a navigation bar with the Oase logo and the text 'LIVING WATER'. Below the logo, there are four menu items: 'Welcome', 'Downloadportal', 'FAQ', and 'Impressum'. The 'Downloadportal' item is highlighted. Below the navigation bar, there is a breadcrumb trail: 'oase-livingwater.com > Welcome'. The main heading is 'Welcome to the OASE Download-Portal'. Below this, there is a paragraph of text: 'In the password secured OASE Download-Portal we provide for our OASE partners and journalists numerous photos, text'. This is followed by a bulleted list: '• product pictures', '• pictures of implementations', '• amthomasphere pictures of gardens, ponds, watercourses, fountains, etc.', '• product texts • technical details', and '• and so on'. Below the list, there is a paragraph: 'Please fill in your username and password to login.'. This is followed by another paragraph: 'If you don't have access data, please register for an account. The access data for the former OASE picture database are not valid anymore. Please register for a new account.'. Below this, there is a form with three input fields: 'Email Address' (containing 'downloadportal@oase-liv'), 'Password', and 'Remember Me' (with an unchecked checkbox). Below the form, there is a 'Sign In' button. Below the 'Sign In' button, there are two links: 'Create Account' and 'Forgot Password'. Three red arrows point from text boxes to these elements: one from 'Log in with your username' to the email field, one from 'Here you're able to create a user account' to the 'Sign In' button, and one from 'You forgot your password? Click here' to the 'Forgot Password' link.

Welcome to the OASE Download-Portal

In the password secured OASE Download-Portal we provide for our OASE partners and journalists numerous photos, text

- product pictures
- pictures of implementations
- amthomasphere pictures of gardens, ponds, watercourses, fountains, etc.
- product texts • technical details
- and so on

Please fill in your username and password to login.

If you don't have access data, please register for an account.
The access data for the former OASE picture database are not valid anymore. Please register for a new account.

Here you're able to create a user account

You forgot your password? Click here

After logging in successfully you will see the following view:

Welcome to the OASE Download Portal

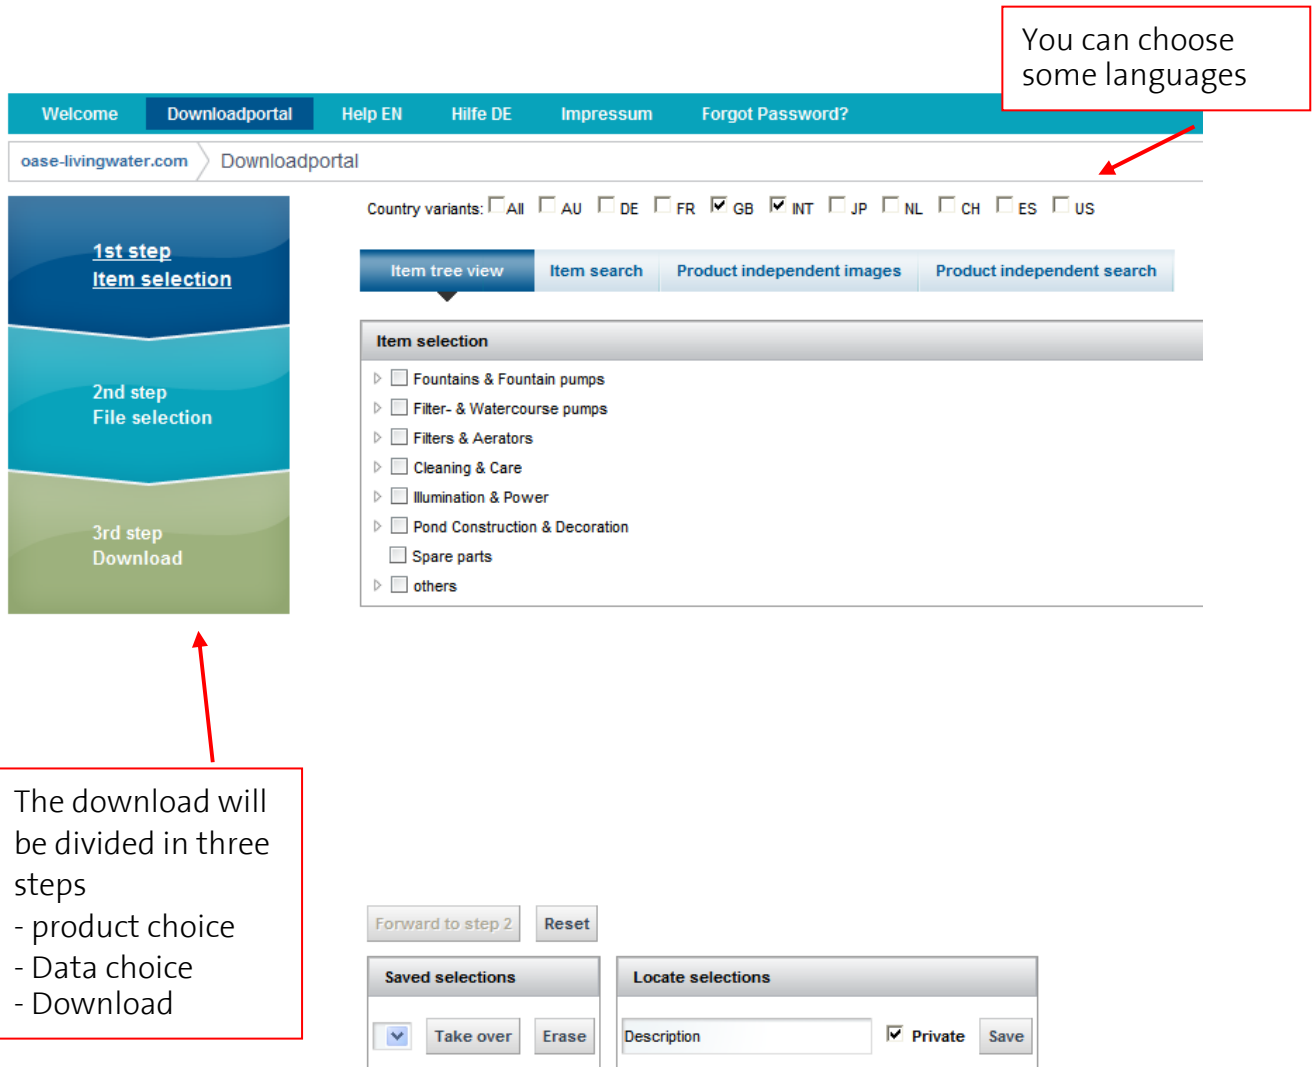

In the password secured OASE Download-Portal we provide for our OASE partners and journalists numerous photos, texts and information about OASE and our products. The content is updated regularly

- product pictures
- pictures of implementations
- atmosphere pictures of gardens, ponds, watercourses, fountains, etc.
- product texts
- technical details
- and so on

Please fill in your username and password to login.

If you don't have access data, please register for an account.
The access data for the former OASE picture database are not valid anymore. Please register for a new account.

After clicking the button „download portal“ you will see the following view:

The screenshot shows the Oase download portal interface. At the top, there is a navigation bar with links: Welcome, Downloadportal, Help EN, Hilfe DE, Impressum, and Forgot Password?. Below this is a breadcrumb trail: oase-livingwater.com > Downloadportal. A red box with an arrow points to the 'Downloadportal' link, containing the text: "You can choose some languages".

On the left side, there is a vertical progress indicator with three steps:

- 1st step: Item selection (highlighted in dark blue)
- 2nd step: File selection (highlighted in light blue)
- 3rd step: Download (highlighted in green)

 A red arrow points from this indicator to a text box below.

The main content area shows 'Country variants' with checkboxes for All, AU, DE, FR, GB, INT, JP, NL, CH, ES, and US. Below this are four tabs: 'Item tree view' (selected), 'Item search', 'Product independent images', and 'Product independent search'. The 'Item selection' section contains a list of categories with checkboxes:

- Fountains & Fountain pumps
- Filter- & Watercourse pumps
- Filters & Aerators
- Cleaning & Care
- Illumination & Power
- Pond Construction & Decoration
- Spare parts
- others

At the bottom, there are two panels:

- 'Saved selections' with a dropdown menu, 'Take over', and 'Erase' buttons.
- 'Locate selections' with a 'Description' input field, a checked 'Private' checkbox, and a 'Save' button.

 Above these panels are 'Forward to step 2' and 'Reset' buttons.

A red box with an arrow points to the progress indicator, containing the text: "The download will be divided in three steps - product choice - Data choice - Download".

=> From here on you can start with the 3 steps of the download

1. Step: Product choice

There are four variants to search for the product:

1. Product tree
2. Product search
3. Product independent pictures
4. Product independent search

Variant 1: Product tree

Country variants: All AU DE FR GB INT JP NL CH ES US

Item selection

- ▣ Fountains & Fountain pumps
 - Water Entertainment
 - Aquarius
 - ▣ Controllable pumps
 - ▣ Varionaut
 - [57436 Varionaut 2 INT](#)
 - [50136 Varionaut 90 24 V /DMX/02 INT](#)
 - [50343 Varionaut 150 /DMX/02 INT](#)
 - [50665 Varionaut 150 24 V /DMX/02 INT](#)
 - [50526 Varionaut 365 /DMX/02 INT](#)
 - [51068 Varionaut 365 /DMX/02 INT](#)
 - Classic pumps

You can click through the article tree starting with the product group (here e.g. „Controllable pumps“) across the product family (here e.g.: „Varionaut“) until you reach the wanted products (here e.g.: „Varionaut 150“)

Now you can mark the check boxes of the products or product families to which you want to download pictures, documents etc. within the next step.

After clicking directly to the product you will see the following view:

[Back](#)

Varionaut 150 24 V /DMX/02

Item number: 50665

[Information](#) [Video](#) [Images](#) [Details](#) [Documents](#)

There are 5 buttons, than you can see which information you can get about the corresponding products.

Product characteristics

To the selected item were no product characteristics found.

[Back](#)

If you click here you will come back to the product tree.

Varionaut 150 24 V /DMX/02

Variant 2: Product search

With clicking the „return“ button you will return to the product tree.

Item tree view **Item search** Product independent images Product independent search

Search

Item number
50665

Item description

Item selection - Number of hits: 1

[50665 Varionaut 150 24 V /DMX/02 INT](#)

Showing 1 result.

Filter

Product type

Filter based on item number

Search for the product numbers or descriptions

The search result will be displayed in this area.
Like in variant 1 You can also mark the check box to see more information about the product.

You also have the option to filter your search results for segments, groups, families and market launching year.

Here you can include a complete Excel-Sheet („copy & paste“) and we will filter out our article numbers.

Variant 3: product independent pictures

Item tree view Item search **Product independent images** Product independent search

- Poland-Gliwice
- Poland-Krakow
- Pleciuga - Poland
- Poland-Warsaw-MultiMedia Fountain Park
- Poland-Wolsztyn
- Russia-Saint Petersburg-Newa
- Bugis Junction, Singapore
- Crane Dance, Singapore
- Singapore-Lake Marina Bay Sand
- Singapore-Lake of Dreams
- Singapore-Mount Faber
- Banpo Bridge - Seoul, SouthKorea
- FT-Projects-Fountains

There are the OASE image pictures listed. They are departed in different topics (here e.g.: „the fountain technology projects“) under which you can find more pictures for the respective theme.

Variant 4: product independent search

Item tree view Item search Product independent images **Product independent search**

Search

Catchwords

Select product independent pictures - Number of hits: 2

Fountains

Swimming ponds

Here you can search for tags like „nozzle“, etc. to download product independent pictures.

Before you're going to start with the data choice (step 2) you have to activate all the check boxes of each product to which you want to download information (Pictures, texts, etc.).

The check boxes look like this:

Green "Plus-Button": You will mark all products, which do you call up.

Red "Minus-Button": You will disable all products, which do you call up.

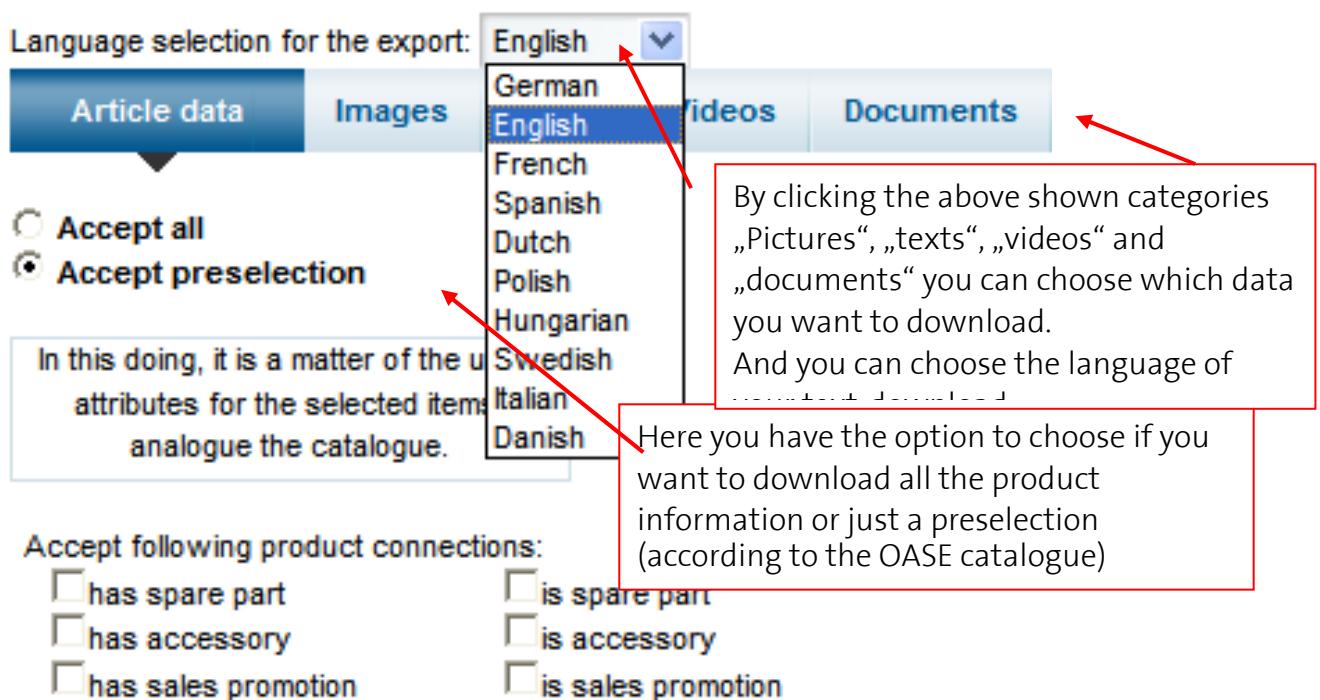

When you click all items separately you choose your individual articles.

After you marked all the relevant products you can continue with step 2.

Therefore click the button „continue to step 2“ on the bottom of the page:

2. Step: Data choice

Language selection for the export: English

Article data | Images | Videos | Documents

Accept all
 Accept preselection

In this doing, it is a matter of the u attributes for the selected items analogue the catalogue.

Accept following product connections:

has spare part is spare part
 has accessory is accessory
 has sales promotion is sales promotion

By clicking the above shown categories „Pictures“, „texts“, „videos“ and „documents“ you can choose which data you want to download. And you can choose the language of

Here you have the option to choose if you want to download all the product information or just a preselection (according to the OASE catalogue)

Finish of step 2 (Data choice):

After picking the data you want to download you can continue with step 3 (download). Therefore please click the button „continue with step 3“ on the button of the page:

Back to step 1

Forward to step 3

3. Step: Download

See example „Varionaut“-line

- Download as detail list (space-saving - every file exists just one time in the Zip-file)
- Maintain the duplicates

Download 1 Image data as layout - 72 dpi (no print quality; e.g. for the internet) Filesize: 1006 kB	Download 2 Image data as HiRes - 300 dpi (print quality) Filesize: 48 MB
--	--

You can choose between download 1 and download 2. Download 1 provides you smaller pictures that are qualified to be used in the internet. These pictures don't have print quality. Download 2 provides you pictures with a higher resolution and in print quality.

After clicking Download 1 or Download 2, the following window will appear:

Now you can decide if you want to open the ZIP-file directly or if you want to save it to your local hard drive.

The ZIP file format is a format that contains comprimized data. To open these files you have to use a program like „WinZip“. Since Windows XP there is an integrated ZIP-function, so you don't need another extra program like for example „WinZip“ to unzip the files.

If the downloaded files are too big you will receive a mail that includes a link from where you can access the data.

=> The marked files are now readily available in a ZIP-folder.

Example: „Varionaut“-line

Item selection

- Fountains & Fountain pumps
 - ▶ Water Entertainment
 - ▶ Aquarius
 - ▶ Controllable pumps
 - ▶ Varionaut
 - [57436 Varionaut 2 INT](#)
 - [50136 Varionaut 90 24 V /DMX/02 INT](#)
 - [50343 Varionaut 150 /DMX/02 INT](#)
 - [50665 Varionaut 150 24 V /DMX/02 INT](#)
 - [50526 Varionaut 365 /DMX/02 INT](#)
 - [51068 Varionaut 365 /DMX/02 INT](#)
 - ▶ Classic pumps

You can choose a popular product group and then select the related files that you wish to download. Here for example we're choosing the product picture of the „Varionaut“-line.

- Accessories 5
- Advertising material
- Application photo
- Application photo catalogue
- Chart graphic
- Diagram
- Dimensioned drawing
- Emblem
- Exploded drawing
- Graphic
- Image picture FT HP
- Image picture WG HP
- Product detail screen 1
- Product detail screen 2
- Product detail screen 3
- Product detail screen 4
- Product detail screen 5
- Product detail screen 6
- Product photo
- Product photo catalogue
- Pump capacity curve
- Pump performance curve
- System foto
- Water picture

- Download as detail list
- Remove the duplicates (space-saving - every file exists just one time in the Zip-file)

Download 1

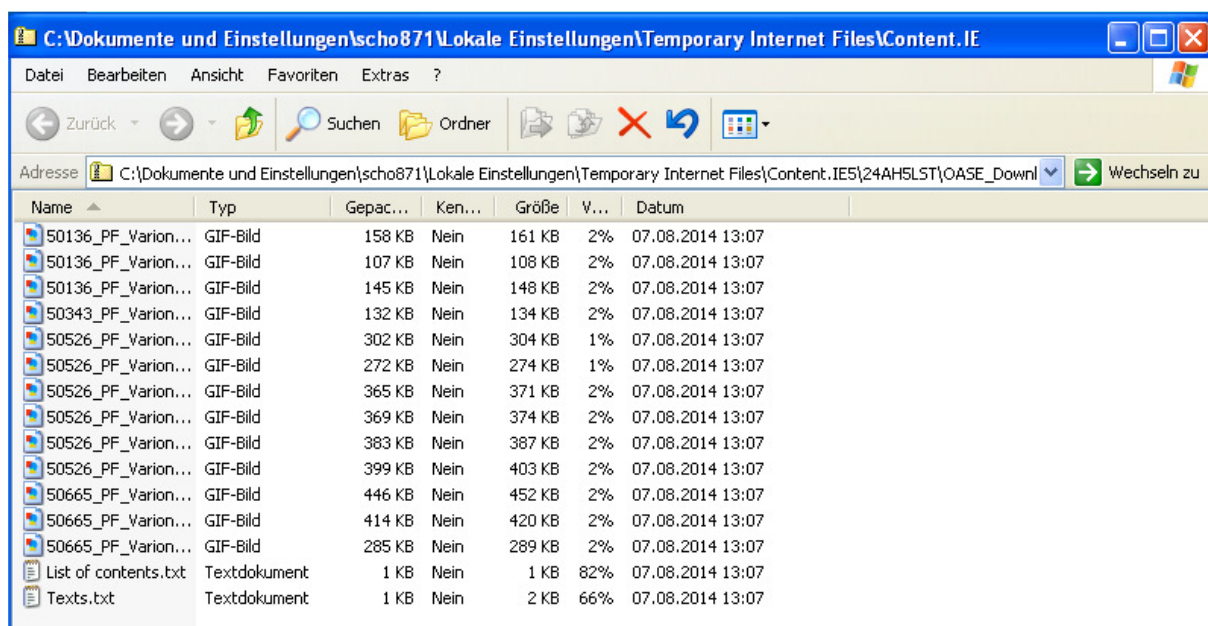

Image data as layout - 72 dpi
(no print quality; e.g. for the internet)
Filesize: 1 MB

Download 2

Image data as HiRes - 300 dpi
(print quality)
Filesize: 103 MB

Tip: The file is too large for a direct download. If you select this file you get a download-link via email.

With putting check marks you avoid doubled downloads. The pictures are all in one folder. In each folder there is only one version of a specific file. Because of that you will save a lot of capacity

The screenshot shows a Windows Explorer window with the following table of files:

Name	Typ	Gepac...	Ken...	Größe	V...	Datum
