

## Cleaning, care and accessories Pure convenience – easy cleaning and care of the aquariums

OASE biOrb offers an extensive range of accessories that facilitate cleaning and care of an acrylic aquarium, first and foremost the biOrb service kit including filter cartridge cleaning cloth and water treatment station that is suitable for all biOrb aquariums. The cleaning cloth effectively removes contamination, and with the biOrb scratch remover sets scratches can be effortlessly removed so that the aquariums quickly look almost like new again. (OASE)

**biOrb intelligent heater: The safe way to ensure the optimal water temperature – easy cleaning and care of the aquariums**

The intelligent 50 W heater with PowerBox checks the water temperature up to 3000 times a minute with an accuracy of 0.5 degrees Celsius. It is preset to 24.5 degrees Celsius and works automatically – additional settings are not required. The robust heater module with 2 meter cable length can be easily concealed under decoration material and the safe 12 V technology works with particular energy efficiency. (OASE)

## **biOrb lighting: Intelligent, multi-colour light that simulates the day / night rhythm**

The OASE biOrb MCR light is an innovative, multi-coloured aquarium light with 16 different colour settings that can be controlled. A colour intensity of 100% is preset, which can be dimmed down to 20% intensity. MCR stands for Multicolour Remote and offers the possibility of simulating the light conditions of day and night in four different time cycles. For example, an eight-hour cycle simulates seven hours of daylight and for 15 minutes before and after the MCR light simulates the light conditions of sunrise or sundown. This cycle can also be set in the same manner for 10, 12, and 14 hours. Thus the underwater world is not only a decorative element, it also becomes a unique experience. (OASE)
