

biOrb CLASSIC: The classic for a beautiful all-round underwater world

The biOrb CLASSIC acrylic aquariums combine the classic beauty of a round aquarium with the many advantages offered by modern acrylic aquariums: They are light, particularly transparent for an outstanding view and moreover they are highly resistant. The biOrb CLASSIC 15 models are perfectly suited as decorative aquariums. The biOrb CLASSIC 30 Thermo additionally includes the biOrb heater set, consisting of heating rod, heater holder and thermometer. Thus the water temperature can be regulated. The biOrb CLASSIC 60 is also available as a Thermo variant with heating module. All models are equipped with either standard LED lighting or MCR lighting – remote controlled RGB lighting modules that stage the aquarium in all colours of the rainbow. The complete set consists of an aquarium of highly-resistant, transparent acrylic, appropriate lighting, air stone, air pump, ceramic substrate, as well as an efficient filter system. The perfectly matched biological, chemical and mechanical water cleaning ensures a stable balance of the aquarium water and makes cleaning and care particularly easy. (OASE)
