

OptiMax aquarium pumps – always in motion for optimal water circulation.

The OptiMax series pumps satisfy all requirements imposed on modern aquarium pumps. Impressively compact sizes for placement that is virtually invisible. The quiet operation is stress-free for animals and people, and low energy consumption continuously saves electricity. The OptiMax aquarium pumps are robust and have a long service life; all of them have an individually adjustable water flow rate.

OxyMax aerator pumps – optimally supplied with oxygen

The OxyMax aerator pumps ensure optimal oxygen supply of the aquarium inhabitants and plants: They have an adjustable air delivery rate, the bubbling pattern can also be adjusted and they are pleasantly quiet in operation – and they offer these advantages as a complete set that is immediately ready for installation. They run quietly and are particularly robust. (OASE)
