

### **Stone liner, granite grey**

Naturally beautiful: Design aesthetically with stone liner in granite grey

Starting in January 2017 OASE is also offering the popular stone liner in modern granite grey – an appealing design element for architectural pools in particular. The robust decorative liner is finished with fine, genuine gravel, and thanks to the fleece coating on the underside, it can be conveniently bonded with PVC liner. Thus it is also suitable as a decorative liner for modelling – a real all-round talent that can also be fixed in place on the pond liner with OASE UniFix+ adhesive, for example. (OASE)
