

## **EuroFol EPDM pond liner**

Back in the product range: Extremely flexible and robust rubber liner

Starting in January 2017, OASE again includes the proven EuroFol rubber liner in improved quality, in the product range. The pond liner is made of a highly-resistant synthetic rubber with a particularly long service life, with its rough surface without talcum it offers an ideal settlement surface for the vital microorganisms. EuroFol is fish compatible and plant compatible in accordance with WrC, it is extremely durable and flexible. The jet-black colour also has a very dark effect underwater.
