

## **ProMax ClearDrain 6000, MudDrain 6000 und ProMax Rain 4000**

Three new performers complete the drainage and irrigation product range

As of the drainage and Irrigation assortment, OASE continues its success story which has started with the ProMax brand's market introduction last season. The ProMax pumps stand for high quality products engineered in Germany with the well-known OASE Service coming along. In 2017, three more performers will be added to the product range: The submersible clean water pump **ClearDrain 6000** and the submersible dirty water pumps **MudDrain 6000** round up the range with 6000 Liter flow rate per hour and correspond to the high demand for such pumps on a price entry level. Also, OASE adds a high-quality rain barrel and cistern pump to the range: The **ProMax Rain 4000 which is robust and reliant** - a fine filter protects it from clogging. (OASE GmbH)

### OASE ProMax

OASE ProMax ClearDrain 6000 (Art. 47746)	RRP 68,99 Euro
OASE ProMax MudDrain 6000 (Art. 47748)	RRP 74,99 Euro
